Students may request a Leave of Absence (LOA) when in need to be out of the school for a period of time longer than 14 days due to reasonable circumstances such as family illness, disability, or emergency. See the policy on Leave of Absence listed in this catalog under the Student Services section.

Students are expected to arrive to class on time. Students that arrive 15 minutes late will not be permitted to enter the class until recess. Only the hours in attendance will be computed.

Exceptions are submitted to the student services office for approval. The anticipated date of return must be indicated on the request as well as the reason for a student's leave request.

In the event that a student complaint emerges, including complaints pertaining to fair consumer practices, students are expected to resolve such grievances in an appropriate, and timely manner. Most students' complaints are often resolved through open dialogue with the parties involved. If that doesn't resolve the matter an appointment may be made with the School President. The School President will meet with the student in effort to reach a resolution. If the result of this level of discussion does not produce a fair resolution, the next step would be for the student to submit a formal written grievance for final consideration and resolution. The School President will respond to the formal grievance within five business days in writing. In cases where the grievance is not settled at the institution level, the student may contact the following regulatory agency:
