A MESSAGE REGARDING CAMPUS SAFETY AND SECURITY

For your information, a copy of the ICR Florida Education ("ICR") Annual Security Report is provided below. This report is prepared and distributed annually in compliance with the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act" (the "Clery Act"). It is made available to all current students and employees, and, upon request, to prospective students and employees and to members of the public.

ICR's commitment to safety and security includes:

- Providing a secure and crime-free environment for students, faculty and staff;
- Performing regular evaluation of security programs; and
- Monitoring and following up on each crime reported at ICR's campus.

We believe that the behavior of students, faculty and staff plays an important role in all aspects of campus safety, and we encourage every member of the ICR community to accept responsibility for their own security as well as the security of others.

Safety Tips

- Report strangers and suspicious behavior: report anything suspicious on or around the campus to supervisory personnel.
- Park your vehicle in a well-lit area and have your key in your hand as you approach it.
- When walking to your car, do not walk alone; use the buddy system.
- Once you are in your car, lock your doors immediately.
- Always stay alert and be aware of your surroundings.

STATEMENT OF CURRENT POLICIES REGARDING PROCEDURES FOR REPORTING CRIMINAL ACTIONS AND EMERGENCIES

Creating a safe environment is a shared responsibility. Students, faculty and staff who wish to report criminal actions, suspicious activities, or emergencies are encouraged to do so promptly. They have the right to report these matters confidentially, and victims or witnesses to a crime are encouraged to file a report for inclusion in the annual disclosure of crime statistics.

Any criminal action or emergency should first be reported to the responsible supervisory personnel and to local authorities for assistance and/or investigation. The incident should then be reported as soon as possible to the Campus Director, who will follow up on the report personally or assign responsibility to another appropriate administrator to follow up, report on the outcome, and document any preventative or other actions taken to ensure the safety and security of all students, faculty and staff.

Students and employees should promptly report all criminal actions and emergencies occurring on or around ICR Florida Education facilities to the School President, Sebastian Paramo, in person or by calling the school at (786) 882-0022. If the School President is not available, contact the Front Desk at (786) 400-2003 and the Miami-Dade Police Department by dialing 911 or (305) 471-1780. In the event of a fire or medical emergency, staff and students should dial 911 first and then notify the School President.

All criminal activity is documented through the completion of an Incident Report, which is retained in a secure location in the School President's office and reported to local police agencies. Reportable activity includes, but is not limited to, murder/non-negligent manslaughter, negligent manslaughter, forcible and non-forcible sex offenses, robbery, aggravated assault, burglary, motor vehicle theft, arson, hazing, and hate crimes, including crimes motivated by bias based on race, gender, gender identity, religion, sexual orientation, ethnicity/national origin, or disability.

Voluntary Confidential Reporting

Because ICR is a non-residential institution and does not maintain a campus police force, all crimes must be reported to local authorities as stated above. Local law enforcement will allow a victim or witness to report a crime on a voluntary and confidential basis. Reports filed in this manner are counted and disclosed in the annual crime statistics, and the names of victims or witnesses are not disclosed. ICR does not utilize pastoral or professional counselors for this process.

Policies for Preparing the Annual Disclosure of Crime Statistics

The Campus President has the responsibility for gathering the data used to prepare the annual campus crime statistics. Data is obtained from Incident Reports completed by ICR personnel and from information requested annually from local law enforcement, combined with information gathered by staff. Campus crime data is gathered on the same day that an incident is reported. The resulting data is used to prepare the annual crime statistics disclosed in this report. Please see the map of the geographical area included in the Crime Statistics section of this document.

SECURITY OF AND ACCESS TO CAMPUS FACILITIES

ICR Florida Education's policy dictates that access to the institution's facilities is restricted to authorized personnel, students, and invited visitors. Visitors must adhere to ICR's policies and conduct codes at all times, and students and employees are accountable for the behavior of their visitors. School hours are from 8:30 a.m. to 10:00 p.m.

In accordance with this policy, all employees must:

1. Keep all unsupervised and unoccupied areas locked at all times.
2. Regularly check the alarm systems and security lighting to ensure they are functioning properly.
3. Ensure that security contacts are present on site during all hours the building is open to students and the public.
4. Immediately report any suspicious activity related to the institution or its properties to the School President, regardless of how minor it may seem. If the School President is unavailable, contact the Receptionist at (786) 400-2003 or the Miami-Dade Police Department by dialing 911 or (305) 471-1780.

Be familiar with all of the institution's procedures for handling accidents or criminal activities, including:

- Promptly assess the condition of any injured employees, students, or other parties.
- In the event of an automobile accident, secure the accident scene and set warning devices.
- Notify the appropriate authorities by calling 911.
- Complete an Incident Report and obtain a copy of the police report.
- Gather information from witnesses.
- If an alleged sex offense on school premises is reported, the involved parties are allowed, if applicable, to alter their academic schedule based on class availability.
- Ensure that access to the building in the evening is restricted to the front doors or to doors where entry is continuously monitored. All other doors are locked to prevent entry but may be used to exit.

ICR Florida Education does not have off-campus locations for student organizations officially recognized by the institution, and does not provide on-campus or off-campus housing facilities.

School Security Enforcement

If security personnel are present at the school building, it is at the behest of the building owners or the institution to provide assistance to students, faculty and staff. During operational hours, a designated individual may be on duty to ensure that only authorized personnel and invited visitors gain access to the premises. These personnel are empowered to request identification from unfamiliar individuals and to remove unauthorized persons from the premises. Students and employees are strongly advised to carry their School Photo ID card at all times and to present it upon request. Security personnel are not authorized to make arrests; they are instructed to promptly notify the School President or emergency services (911) in the event of any illegal activity.

Relationships with Local and State Police

ICR Florida Education is situated in Miami-Dade County. The institution maintains a close working relationship with the Miami-Dade Police Department and regularly reaches out to ensure awareness of any criminal offenses and arrests that take place on or near the school premises. This allows for proper reporting and, if necessary, the issuance of timely warnings regarding ongoing threats. There is no written memorandum of understanding with local law enforcement; ICR does not have a campus police or campus security department, and all law enforcement authority rests with the Miami-Dade Police Department.

PROGRAMS TO INFORM STUDENTS AND EMPLOYEES ABOUT CAMPUS SECURITY AND CRIME PREVENTION

All new ICR Florida Education employees receive training on crime awareness, prevention, and school security as part of the hiring process. They also receive instruction on these topics during staff and faculty meetings and are encouraged to take responsibility for their own security and that of their colleagues and students.

Similarly, all new ICR Florida Education students undergo training on crime awareness, prevention, and school security during orientation. The orientation covers school security policies and procedures, tips on avoiding becoming a victim of crime, evacuation plans, and reporting procedures for any criminal activity or emergency. The institution offers in-service programs to raise awareness about crime and its prevention. These programs are conducted by local law enforcement officials or other qualified personnel at least once a year. Topics include proper procedures for reporting criminal actions, personal safety, urban living, crime prevention, basic safety, and neighborhood watch programs. In addition to this annual report, students and employees are informed about specific security concerns as they arise throughout the year. If the institution, with the help of local police, finds that a particular criminal offense continues to pose a threat to the school community, the School President will notify the community through bulletin board notices, announcements in classrooms, student handouts, or the Emergency Notification System.

Students are encouraged to review the institution's catalog and/or handbook for the Student Code of Conduct and to read the School Security and Crime Prevention Policy handout. Employees are encouraged to review the Employee Handbook and the same handout for information on conduct and safety policies.

Registered Sex Offender Information

In accordance with the "Campus Sex Crimes Prevention Act" (section 170101(j) of the Violent Crime Control and Law Enforcement Act of 1994), information concerning registered sex offenders may be obtained from the Miami-Dade Police Department, 9105 NW 25th Street, Miami, Florida 33172, or by calling (305) 471-2800. Information may also be obtained from the Florida Department of Law Enforcement (FDLE) Sexual Offender & Predator Unit, P.O. Box 1489, Tallahassee, FL 32302; phone (850) 410-8572; toll free (888) 357-7332; email sexpred@fdle.state.fl.us; or on the FDLE website. National information is available through the U.S. Department of Justice National Sex Offender Public Website at <https://www.nsopw.gov>.

Title IX Policy Statement

Title IX of the Education Amendments of 1972 is a federal law that prohibits sex- and gender-based harassment and discrimination in any education program or activity. Title IX provides that “no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance.” Sexual harassment, sexual assault, sexual misconduct, dating and domestic violence, and stalking are prohibited under Title IX.

ICR not only complies with the letter of Title IX’s requirements but also endorses the law’s intent and spirit. It is the policy of ICR to provide educational, preventative, and training programs regarding sexual or gender-based harassment; to encourage the reporting of incidents; to prevent incidents of sexual and gender-based harassment; to make available timely services for those who have been affected; and to provide prompt and equitable methods of investigation and resolution to stop discrimination, remedy any harm, and prevent its recurrence. Violations of this policy may result in sanctions up to and including termination, dismissal, or expulsion.

ICR prohibits discrimination and harassment based on race, color, creed, religion, sex, gender, national origin, citizenship, ethnicity, marital status, age, disability, sexual orientation, gender identity and gender expression, genetic information, veteran status, or any other status protected by applicable law.

Title IX Coordinator

Jose Alvarez, Campus Director, 633 NE 167th Street, Suite #200, North Miami Beach, Florida 33162; phone (786) 400-2003; email j.alvarez@icrflorida.edu.

Investigations of Complaints

A complaint that a student, staff, or faculty member has committed sexual harassment or engaged in nonconsensual sexual activity may be made to the Title IX Coordinator or to a staff or faculty member. ICR will conduct an investigation as appropriate under the circumstances, which involves interviewing the parties and any witnesses and gathering documentary or other evidence. In cases involving alleged criminal conduct, the complainant may file a criminal complaint with the local police department; a complainant need not pursue a criminal complaint in order to seek resolution through ICR’s Code of Conduct.

In determining whether sex discrimination, sexual harassment, or sexual misconduct occurred, ICR uses a “preponderance of the evidence” standard. The complainant and the accused will have an equal opportunity to offer witnesses and evidence and will be informed in writing of the outcome, to the extent permitted by law. ICR endeavors to resolve complaints promptly; ordinarily the investigative stage will take no longer than 60 calendar days from the time the complaint is received. ICR prohibits retaliation against any individual who in good faith makes a complaint or participates as a witness in a proceeding under this or any other ICR policy.

SEXUAL ASSAULT, DOMESTIC VIOLENCE, DATING VIOLENCE, AND STALKING (VAWA)

In compliance with the Violence Against Women Reauthorization Act of 2013 (VAWA), ICR Florida Education has implemented a policy prohibiting sexual harassment, sexual violence, sexual discrimination, domestic violence, dating violence, stalking, and sexual exploitation, whether the incident occurs on or off campus. Retaliation against or interference with anyone reporting a violation of this policy is strictly prohibited and will result in disciplinary action.

As a complainant of sexual assault, dating violence, domestic violence, or stalking, you will receive a full copy of the institution's Title IX Policy. This policy informs complainants of their right to file criminal charges and of the availability of medical, counseling, and support services, and describes additional remedies to prevent contact between a complainant and an accused party, as well as possible sanctions and interim and long-term protective measures.

Definitions

Consent, in Florida, means "intelligent, knowing, and voluntary consent" and does not include coerced submission. Consent shall not be deemed or construed to mean the failure by the alleged victim to offer physical resistance to the offender (Fla. Stat. § 794.011).

Sexual Assault is an offense classified as a forcible or non-forcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

Domestic Violence includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim; by a person with whom the victim shares a child in common; by a person cohabitating with or who has cohabitated with the victim as a spouse; or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.

Dating Violence means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim, determined by the length and type of relationship and the frequency of interaction between the persons involved.

Stalking means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or to suffer substantial emotional distress. "Cyberstalking" means engaging in a course of conduct to communicate, or cause to be communicated, words, images, or language through electronic means, directed at a specific person, causing substantial emotional distress and serving no legitimate purpose.

Bystander Intervention and Risk Reduction

A bystander is someone other than the victim who is present when an act of dating violence, domestic violence, stalking, or sexual assault is occurring, or when a situation exists in which a reasonable person believes some protective action is required. ICR encourages safe and positive options for bystander intervention and provides risk-reduction information so that students and employees may recognize warning signs of abusive behavior and avoid potential attacks. No victim is ever to blame for being assaulted or abused.

Reporting and Preservation of Evidence

After an incident of sexual assault or domestic violence, the victim should consider seeking medical attention as soon as possible at a local hospital that can provide a physical evidence recovery kit. In Florida, evidence may be collected even if the victim chooses not to make a report to law enforcement. It is important that a victim not bathe, douche, change clothing, or clean the area where the assault occurred if the offense occurred within the past 96 hours, so that evidence may be preserved. Victims are also encouraged to preserve evidence such as text messages, communications, and photographs. To report an incident, contact Jose Alvarez, Campus Director, (786) 400-2003, j.alvarez@icrflorida.edu.

Protective Orders, Sanctions, and Accommodations

ICR complies with Florida law in recognizing orders of protection for dating violence, domestic violence, repeat violence, and sexual violence. Any person who obtains an order of protection should provide a copy to the Campus Director and meet with the Campus Director to develop a Safety Action Plan, which may include escorts, special parking arrangements, or other measures. Sanctions for a violation may include warning, probation, suspension, or dismissal following a final determination. Victims of sexual assault may request changes to their class schedule, and the institution will provide reasonable and available accommodations. ICR does not publish the name of crime victims or any identifiable information regarding victims in its crime logs or reports.

Education and Prevention Programming

ICR engages in primary prevention and awareness programs for all incoming students and new employees, and ongoing awareness and prevention campaigns thereafter. These programs identify domestic violence, dating violence, sexual assault, and stalking as prohibited conduct; define these behaviors and what constitutes consent under Florida law; provide safe and positive options for bystander intervention; provide risk-reduction information; and provide an overview of the information contained in this Annual Security Report. Educational materials are distributed to new students and presented during employee orientation and throughout the year.

HAZING PREVENTION AND REPORTING (STOP CAMPUS HAZING ACT)

In accordance with the Stop Campus Hazing Act of 2024, which amended the Clery Act, ICR Florida Education prohibits hazing in any form and reports hazing statistics as part of this Annual Security Report. Hazing is incompatible with the institution's values and with the safe, respectful learning environment ICR is committed to maintaining.

Definition of Hazing

Hazing means any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons) against another person or persons, regardless of the willingness of such other person or persons to participate, that is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in a student organization, and that causes or creates a risk, above the reasonable risk encountered in the course of participation in the institution or the organization, of physical or psychological injury. This includes, without limitation, whipping, beating, striking, or branding; forced calisthenics; exposure to the elements; forced consumption of any food, liquor, drug, or other substance; forced physical activity; deprivation of sleep; or any activity that induces, causes, or requires a person to perform a duty or task that involves the commission of a crime or a violation of institutional policy.

Prohibition and Sanctions

Students, employees, and student organizations are prohibited from engaging in, planning, encouraging, or tolerating hazing, whether on or off campus. Consent of the individual subjected to hazing is not a defense. Violations may result in disciplinary action up to and including suspension, dismissal, or termination, and may be referred to local law enforcement. Members of the ICR community should report hazing to the School President or the Campus Director using the same reporting procedures described in this report.

Campus Hazing Transparency Report

As required by the Stop Campus Hazing Act, ICR maintains a Campus Hazing Transparency Report summarizing any findings of violations of the institution's hazing policy by student organizations. The Campus Hazing Transparency Report is made available on the institution's website and is updated at least twice per calendar year. Collection of hazing statistics for Clery Act purposes began on January 1, 2025; hazing incidents are disclosed in the Crime Statistics section of this report beginning with calendar year 2025.

POLICY REGARDING ILLEGAL DRUGS AND ALCOHOL

ICR is aware of the dangers posed by the illegal use and abuse of alcoholic beverages and drugs and is committed to abiding by and enforcing all applicable state, federal, and local laws, including the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226). Employees and students are prohibited from possessing, selling, or using illegal drugs and alcoholic beverages on campus or at any institutional function.

Students who violate alcohol and drug laws are subject to prosecution by local, state, and federal officials and to disciplinary action under the Student Code of Conduct. Employees who violate alcohol and drug laws are subject to prosecution and to disciplinary action under the institution's personnel policies, up to and including termination of employment or dismissal from the institution. Information on alcohol- and drug-related health problems and treatment may be obtained from Student Services.

As outlined in sections 120(a) through (d) of the Higher Education Act of 1965, as amended, ICR provides a Drug and Alcohol Abuse Prevention Program annually. All employees and students receive an annual copy of the ICR Florida Education Drug Prevention Handbook, and a signed acknowledgement is retained in the employee personnel file and the student academic file.

EMERGENCY NOTIFICATION, RESPONSE, AND EVACUATION PROCEDURES

The purpose of the Emergency Notification and Response Policy is to establish the institution's responsibilities and procedures for responding to emergency incidents and dangerous situations that involve an immediate threat to the health or safety of ICR's students or employees. ICR is committed to immediately notifying the campus community upon confirmation of a significant emergency or dangerous situation occurring on campus, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

In the event of a campus emergency, inclement weather event, or similar occurrence, the Executive team, in collaboration with IT, will contact the campus community using the school's timely warning and emergency notification systems. Communication methods include email alerts, text alerts, and voicemail alerts. System directories are maintained by IT Services and updated based on data entered into the institution's student information system. Students and employees may receive text messages via cell phone or email with information regarding the threat and the necessary actions to stay safe until the threat is over. In-person notifications may also be carried out by school officials, who will notify each classroom and laboratory of any threat requiring emergency notification.

Timely Warning Policy

ICR is responsible for issuing timely warnings in compliance with the Clery Act. The objective of a timely warning is to keep the campus community informed in a timely manner about crimes that represent a serious or continuing threat and to assist in the prevention of similar crimes. The decision to issue a timely warning is made on a case-by-case basis, considering the nature of the crime, the continuing danger to the community, and any risk of compromising law enforcement efforts. Timely warnings typically address Clery Act crimes – arson, burglary, aggravated assault, criminal homicide, motor vehicle theft, robbery, and sex offenses – but are not limited to these offenses and may be issued for any crime deemed to present a serious or continuing threat. Warnings may be distributed by email, text message, postings around campus, or other appropriate means.

Testing of Emergency Response and Evacuation Procedures

The institution will test its emergency response and evacuation procedures on at least an annual basis. Tests may be announced or unannounced and will include the emergency notification (communications) system using text messaging and/or email transmission, and at least one test of its evacuation procedure. Each test is documented, recording a description of the exercise, the date and time, and whether it was announced or unannounced. The institution publicizes its emergency response and evacuation procedures in conjunction with at least one test per calendar year. Records of the tests, including the surveys used to gather feedback on the effectiveness of the notification, are maintained for a minimum of one year in the Student Services Office.

Procedures for Disseminating Emergency Information to the Larger Community

Any member of the school community may, at their discretion, notify public authorities of an emergency or dangerous situation on school grounds. The School President, Campus Director, and Administrative Services Manager will assess whether public authorities, emergency, and law enforcement agencies should be notified and will do so using the most expedient means available. Means of notification may also include dissemination to off-campus emergency contacts, the media, and parents or guardians, as appropriate.

An active shooter is a person who appears to be actively engaged in killing or attempting to kill people in a populated area, typically using firearms. These situations are dynamic and can evolve quickly. The following recommendations – Run, Hide, Fight – should not be thought of as sequential; select the best course of action based on the situation you find yourself in.

Run

- If a safe path to exit is available, run; have an escape route in mind.
- Encourage others to leave with you, but do not let their indecision slow you down.
- Leave your belongings behind and keep your hands visible for law enforcement.
- Follow the instructions of any police officers and notify authorities of the location of wounded people.

Hide

- If you cannot escape, find a place to hide out of the shooter's view and remain silent.
- Turn off lights, lock doors if possible, and silence your cell phone ringer and vibration.
- Barricade doors and windows with furniture and other objects; stay low but be prepared to move.
- If safe to do so, report your location to the Miami-Dade Police Department and keep the line open.

Fight

- Only as a last resort, and only when your life is in imminent danger, act with aggression to distract or disarm the shooter.
- Work together as a team if others are present, and commit fully to your actions.
- Do not handle the weapon after the threat is neutralized; law enforcement may perceive you to be a threat.

Weapons Policy

The use and/or possession of guns, knives, or any other kind of weapon is not permitted on the premises of ICR Florida Education. Violation of this policy constitutes grounds for dismissal. Possession of a state firearms permit does not exempt anyone from this policy, and the Florida “right to carry” law does not exempt anyone from the “no weapons” policy. Anyone found with a weapon will be reported to the Miami-Dade Police Department for appropriate action.

Health and Safety Policy

ICR Florida Education complies with the requirements and regulations of state and local building codes, the Board of Health, and the Fire Department. The institution undergoes an annual safety inspection by Miami-Dade Fire Rescue.

ADDITIONAL REQUIRED DISCLOSURES

Off-Campus Student Organizations

ICR Florida Education does not recognize any off-campus student organizations and does not provide on-campus or off-campus student housing. Accordingly, the institution has no non-campus locations subject to monitoring for the purposes of the Clery Act. In the event of an injury or crime during a school-sponsored activity, the student or employee should immediately notify the appropriate agencies (police, ambulance, or fire department) and then inform the designated person at the institution as soon as possible.

Missing Student Notification

The Clery Act missing student notification requirement applies to institutions that maintain on-campus student housing facilities. ICR Florida Education is a non-residential institution and does not maintain on-campus housing; therefore, this requirement is not applicable. Any report that a student may be missing will be referred immediately to the Miami-Dade Police Department.

Daily Crime Log

The Clery Act daily crime log requirement applies to institutions that maintain a campus police or campus security department. ICR Florida Education does not maintain a campus police or security department; therefore, a formal daily crime log is not maintained. In its place, ICR documents all reported criminal activity through Incident Reports, which are retained in a secure location in the School President's office and are used, together with information obtained from local law enforcement, to compile the crime statistics disclosed in this report.

Distribution and Availability of This Report

The ICR Florida Education Annual Security Report is prepared annually and made available to all current students and employees on or before October 1 of each year. Notice of the report's availability, together with the information required to access it, is distributed to all enrolled students and current employees. Prospective students and employees may request a copy, and the report is provided during the admissions process or in class for currently enrolled students, and to employees during orientation and through the School Security and Crime Prevention Policy handout.

UNIFORM CRIME REPORT DEFINITIONS

These definitions are excerpted from Appendix A of the U.S. Department of Education's Handbook for Campus Safety and Security Reporting and from the FBI's Uniform Crime Reporting (UCR) Program, and are provided so that readers may better understand the crime statistics disclosed in this report.

Murder / Non-Negligent Manslaughter: The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded.

Negligent Manslaughter: The killing of another person through gross negligence.

Rape: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Fondling: The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of age or because of temporary or permanent mental incapacity.

Incest: Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

Statutory Rape: Sexual intercourse with a person who is under the statutory age of consent.

Robbery: The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Aggravated Assault: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury, usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Burglary: The unlawful entry of a structure to commit a felony or a theft, including unlawful entry with intent to commit a larceny, breaking and entering, housebreaking, and safecracking.

Motor Vehicle Theft: The theft or attempted theft of a motor vehicle, including all cases where automobiles are taken by persons not having lawful access, even if the vehicles are later abandoned.

Arson: The willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, or personal property of another.

Hazing: Any intentional, knowing, or reckless act committed in the course of an initiation into, affiliation with, or maintenance of membership in a student organization that causes or creates a risk, above the reasonable risk encountered in participation in the institution or organization, of physical or psychological injury (as defined by the Stop Campus Hazing Act of 2024).

Weapon Law Violations: The violation of laws or ordinances dealing with weapon offenses, such as the manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; and all attempts to commit any of the aforementioned.

Drug Abuse Violations: Violations of state and local laws relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

Liquor Law Violations: The violation of laws or ordinances prohibiting the manufacture, sale, transporting, furnishing, or possessing of intoxicating liquor. Drunkenness and driving under the influence are not included.

Larceny-Theft: The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another (reportable under the Clery Act only when a hate crime).

Simple Assault: An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury (reportable only when a hate crime).

Intimidation: To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack (reportable only when a hate crime).

Destruction / Damage / Vandalism of Property: To willfully or maliciously destroy, damage, deface, or otherwise injure real or personal property without the consent of the owner (reportable only when a hate crime).

Hate Crime: A criminal offense that manifests evidence that the victim was intentionally selected because of the perpetrator's bias against the victim's actual or perceived race, religion, gender, gender identity, sexual orientation, ethnicity, national origin, or disability.

An institution can exclude or later remove (“unfound”) a reported crime from its statistics only in rare cases where sworn or commissioned law enforcement personnel have fully investigated the reported crime and, based on the results of that investigation and the evidence, have formally determined that the report is false or baseless. Only sworn or commissioned law enforcement personnel may declare a report “unfounded.”

CRIME STATISTICS

The following statistics are disclosed in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. They reflect crimes reported to campus officials and to local law enforcement as occurring within the institution's Clery Act geography for calendar years 2023, 2024, and 2025.

Clery Geography of ICR Florida Education

ICR Florida Education is a non-residential institution that leases and occupies Suite #200 on the second floor of a multi-story, multi-tenant commercial building located at 633 NE 167th Street, North Miami Beach, Florida 33162. The institution's control extends only to the leased premises (Suite #200). ICR does not own, lease, or control the building's parking areas, lobby, entryway, common areas, or other floors; those areas are controlled by the building owner and shared among the building's tenants. Accordingly, for the purposes of the Clery Act, the institution's geography consists of: (1) On-Campus – the leased instructional space in Suite #200 that the institution controls under its lease; (2) Non-Campus – the institution has no non-campus buildings or property; and (3) Public Property – the public sidewalks and streets immediately adjacent to and bordering the building. The building's private parking areas and interior common areas are controlled by the building owner rather than by the institution and therefore do not fall within the institution's Clery geography. A map of the geographical area is provided at the end of this section.

In the tables below, "On-Campus" refers to the space controlled by the institution; "Non-Campus" refers to non-campus buildings or property (none for ICR); and "Public Property" refers to the public property immediately adjacent to the campus.

Criminal Offense	2023			2024			2025		
	On-Campus	Non-Campus	Public Prop.	On-Campus	Non-Campus	Public Prop.	On-Campus	Non-Campus	Public Prop.
Murder / Non-Negligent Manslaughter	0	0	0	0	0	0	0	0	0

Note: The single weapon law violation arrest shown for calendar year 2023 is carried forward exactly as disclosed in the institution's prior Annual Security Report.

Hate Crimes

No hate crimes were reported at ICR Florida Education for calendar years 2023, 2024, or 2025 within any Clery geography category (On-Campus, Non-Campus, or Public Property) or for any category of bias, including race, religion, sexual orientation, gender, gender identity, disability, ethnicity, or national origin. Had any hate crime occurred, it would be disclosed by offense and by category of bias in the table below, which is presented to reflect the reporting categories required by the Clery Act.

Offense (all geographies, CY 2023–2025)	Race	Religion	Sexual Orientation	Gender	Gender Identity	Disability	Ethnicity	National Origin
Murder/Non-Negligent Manslaughter	0	0	0	0	0	0	0	0

Note on Area Crime Data Obtained from Local Law Enforcement

In furtherance of its commitment to transparency and community awareness, and to compile this report, the institution submitted a public records request to the Miami-Dade Police Department (Request No. PRR-2026-1274, submitted July 9, 2026). In response, the Police Department provided crime data for the location of 633

NE 167th Street and for a broader surrounding police reporting grid, aggregated across the requested multi-year period.

This area data is disclosed below for situational awareness. It is not incorporated directly into the Clery statistics tables above for three reasons: (1) it was provided as an aggregate multi-year total and was not disaggregated by calendar year, as required for Clery reporting; (2) the “surrounding grid” encompasses a geographic area substantially larger than the Clery Act definition of “public property immediately adjacent to the campus”; and (3) the address 633 NE 167th Street is a multi-story, multi-tenant commercial building in which the institution leases and controls only Suite #200 — the building’s parking areas, lobby, entryway, common areas, and other floors are controlled by the building owner and are not within the institution’s Clery geography — such that incidents reported at that address cannot be attributed to the institution’s controlled space without further location-specific verification. The institution will continue to request calendar-year and location-specific data from local law enforcement to refine future disclosures.

Incident Type (aggregate, requested period)	At 633 NE 167th St (building address)	Surrounding police grid
Assaults	2	9
Burglaries to Businesses	5	13
Burglaries to Vehicles (larceny under UCR)	2	44
Burglaries to Residences	–	19
Homicide	1	1
Rape	1	1
Vehicle Theft	1	58

Map of the Geographical Area

The map below shows the geographical area in which the institution’s building is located. For the purpose of this report, crime statistics reflect the space occupied and controlled by ICR Florida Education under its lease — Suite #200 on the second floor of the building — together with the public property immediately adjacent to the building. The building’s parking areas and common areas are controlled by the building owner and are not part of the institution’s Clery geography. [Insert campus map here.]
